

# Why invest in flooring accessories

Once your floor has been fitted you can really see the impact a new carpet or laminate has on your living spaces. However, without the addition of door bars or beading, it still looks unfinished. You really can get more out of your floor with the introduction of accessories – not only do they add that final flourish to the look of your floor, they also add extra protection against damage, so you can rest assured. At Alexanders we stock all the accessories you need to get the perfect flooring finish. From grippers and adhesives which secure your floor to the sub-floor, to decorative door bars and stair rods, you'll find them in store. For more information on flooring accessories visit our friendly advisers in store.

Investing in flooring accessories will:

- add the finishing touches to your rooms
- help to keep your flooring secure and looking great
- bridge gaps between rooms and flooring types for a seamless transition
- provide extra protection for your floor

We stock a range of flooring accessories for Carpets, Vinyl, Laminate and Luxury Vinyl Tiles. Getting the right accessories for your floor will ensure you get the perfect finish every time. It is easy to get confused, so make sure you get the right accessory for your needs.

## Understanding flooring accessories

Flooring accessories offer real benefits for creating that perfect finish whatever the room and flooring type. They can be used to secure to floor to the sub-floor, and create a seamless transition between different types of flooring. Bridging the gap in your door ways between say a cosy lounge carpet and practical laminate in the hallway can be done without compromising the look by simply adding the right flooring accessory. Discover the right flooring accessory for you and your home from the options below.

## Carpet gripper

Available in lengths of 1.52m, carpet gripper comes pre-nailed to provide a firm grip on your floors and prevent new carpets losing tension once laid. Gripper rods are thick and rigid to provide an ultra-strong grip and keep the carpet taught so you won't get any lumps and bumps. Simple to use, carpet gripper can be cut to size if needed which can speed up installation. Carpet gripper is suitable for use on wooden floorboards and most concrete subfloors and can help your carpet to maintain its appearance, even when vacuumed.

## **Wooden beading**

Beading is available in a choice of colours and shades of wood to complement your wood flooring. This engineered wood and laminate floor edging fills the expansion gap between your planks and the wall or skirting board and adds extra protection to your flooring. Engineered wood and laminate beading is easy to install and great value for money, giving your flooring the finishing touch it needs to complete your room beautifully.

## **Single edge door bar**

If you need to join the threshold between a room and an open area of hard flooring then this is the accessory for you. Available in brass and aluminium to suit many styles of décor, single door bars are perfect to bridge the gap between a carpet and vinyl, as well as to stylishly finish your doorways. With grips added to one side to take a firm hold of the underside of carpets and a flat edge at the other, it provides a neat join in between rooms and reduces trip hazards too.

## **Double edge door bar**

This accessory is just what you need to join two carpets together across a doorway. With grips on either side to hold the carpet firmly in place, double edge door bars complete your door thresholds neatly and stylishly in either brass or aluminium, as well as keeping your carpet looking its best. These low cost accessories not only look fabulous, they also make your carpet edges safe from trip hazards and help to keep your carpet taught and free from lumps and bumps. This is an essential accessory that will help to keep your carpet in tip-top condition.

## **Z section door bar**

Looking to join carpet with other carpet or flooring of a different height professionally and neatly? Then a Z section door bar is just what you need. Ideal for heavy use, a z section door bar provides a neat and tidy look when joining carpet with other carpet or hard floors. Available in classic brass or contemporary aluminium, these door bars will give your thresholds a gorgeous finish as well as protecting your floors and keeping you safe from tripping accidents. Door bars are great value for money and create smooth transitions between rooms so are a must to finish your flooring.

## **Laminate door bar**

The perfect way to finish your new laminate flooring and to make your doorway neat and safe from tripping hazards. These door bars are available in a choice of wood colours to complement any laminate flooring to perfection. Sitting flush across thresholds, laminate door bars create a smooth transition between rooms with laminate flooring, making your room look complete and protecting your floors at the same time. These essential accessories are very low cost so won't break the bank but the impact on the overall look of your floors is priceless.

## **LVT door bar**

Your luxury vinyl tiles have been installed and look amazing. Now you just need something to bridge the gap between your door threshold and another room with different flooring. LVT door bars sit across thresholds, covering expansion gaps, protecting your floor and creating smooth travel from room to room. These innovative door bars go one step further by incorporating a clear central space so you can slot in a strip of your LVT, making the room-to-room transition of different floorings completely seamless and almost invisible. These door bars will give your room a perfectly professional finish.

## Double sided vinyl tape

Double-sided vinyl tape will fix vinyl flooring to your sub floor. Easy to use, this tape is super strong and provides a firm and secure hold that's sure to last. Simply attach the tape to the underside of your vinyl flooring and then lay the vinyl across your floor. Stick down for a flat and even finish and flooring that won't budge! This functional tape is the easy way to ensure your vinyl flooring stays in place.

## Vinyl adhesive spray

Like vinyl tape, adhesive spray is a quick and easy way to make sure your vinyl flooring stays in place. This powerful spray is fast-acting and will bond your vinyl to pretty much any sub-floor including concrete, stone, wood and tiles. Simply spray the underside of the vinyl and lay across your floor, making sure there are no lumps. This spray will help give your vinyl flooring an instant smooth and professional finish that will last and last.

## **Underlay**

Underlay is not an optional extra – it's an integral ingredient that shapes how flooring feels, wears and looks. From adding cushioned depth and absorbing shock, to reducing noise and insulating your home, the benefits of underlay are clear to see. We stock underlay to suit carpets, vinyl, laminate and luxury vinyl tiles.
